

Miami Open Account Manager

Viewing/Adding your Tickets to your Wallet Through the Tennis One App

Step 1: Go to the App store or Google Play Store and search for the Tennis One App. Download the app to your phone.

Step 2: Once you start to scroll through the app, a top bar will appear. Click on the ticket icon – next to the settings icon.

Step 3: When prompted, sign into your Ticketmaster Account using the same credentials you used to accept your tickets.

Step 4: Click on the ticket you wish to add and select “Add to Apple Wallet” or “Google Pay” depending on your device. You can then add all tickets for a session, or just an individual ticket.

Step 5: If you have an Apple phone, your ticket can now be found in your **Wallet** application.

If you have an Android phone, your ticket can now be found in your **GPay** application.

Please Note: If you have not set up an account in GPay, you will need to set one up prior to viewing your tickets. Your ticket can be found under **Passes**
